# Contents Volume 153 (2002)

*Research Papers*

Revision of the late Pleistocene stratigraphy of Bermuda
P.J. Hearty . . . . . 1

The middle Pleistocene Merced-2 and -3 sequences from Ocean Beach, San Francisco
R.M. Carter, S.T. Abbott, I.J. Graham, T.R. Naish and P.R. Gammon . . . . . 23

Variation in terrigenous supplies in the Upper Pliocene to Recent deposits of the Venice area
C. Stefani . . . . . 43

*ExpresSed*

Tepees in peritidal carbonates: origin via earthquake-induced deformation, with example from the Middle Cambrian of western Canada
B.R. Pratt . . . . . 57

*Research Papers*

Controls of sea level fluctuations on the formation of Ordovician siliceous nodules in terrigenous offshore environments
A. Loi and M.-P. Dabard . . . . . 65

Mat-related sedimentary structures in Neoproterozoic peritidal passive margin deposits of the West African Craton (Anti-Atlas, Morocco)
E. Bouougri and H. Porada . . . . . 85

*Author Index Volume 153 (2002)* . . . . . 107

*Contents Volume 153 (2002)* . . . . . 109
